- Certificates can be issued immediately after submitting the exam and completing the course.

III. Instruction

In accordance with the revised Safety and Health Education Regulations (effective March 2, 2023), the following changes have been implemented.

- To prevent proxy attendance and other fraudulent training activities, a mobile phone identity verification system has been added.
- Learners can now take courses using portable devices such as smartphones and tablet PCs.

Amendments
Addition of Identity Verification System
Availability of Training via Portable Devices

- However, taking courses while working or driving is restricted.
(If movement is detected, the training playback will be stopped.)
